Atty. Docket No. 27726-94930

**Remarks**

Applicant respectfully requests favorable reconsideration of the present application in view of the amendments and remarks set forth herein. Applicant appreciates the Examiner's examination of this application and the indicated allowability of claims 3, 6 and 9-13 upon making formal amendments.

The Examiner has rejected claims based on the Roberts reference. the Roberts reference does not provide an extension as set forth in the claims. More particularly, Roberts does not have an extension substantially protruding from the body of the housing in the dispensing area and positioned proximate to and extending substantially along at least one side of the at least one server in the dispensing area. Additionally, Roberts does not have a void being defined in the dispensing area between the extension and the overhanging portion.

For a rejection to be sustained under 35 USC section 102 the cited reference must included each and every element of the claim. As noted above, the Roberts reference does not have each and every element of the amended claims. As such, Applicant respectfully requests that the Examiner withdraw the rejection under 35 USC section 102 and allow the claims.

The new claims are asserted to be allowable over the cited references.

In view of the foregoing amendments and remarks Applicant respectfully request that the Examiner allow the claims in the present application.
